4.4 About Buenos Aires

Nice to know before arrival

Who we are: The city of many passions

We are “porteños,” the people of the port. We have immigrant blood, we are passionate, we give big embraces and we always greet with a kiss. Our tables are always crowded with friends, uncles and aunts, cousins, children, brothers and sisters, and we talk – perhaps sometimes argue – for hours. We express our emotions with enviable ease.

We are made of contrasts: between popular culture and sophisticated culture, between the traditional and the modern, between old religions and modern idols, and our city is full of life and intensity, enriched with stories that are shared and entwined.

Here, we bump into each other in the street then sit for hours over a coffee. Here, we look each other in the eye. Here, the night is a new day, and the city lights up with its hundreds of theatres and thousands of restaurants and bars.

We don't speak Spanish; we speak porteño, our own unique dialect that is part of the city's identity. Here, the taxi drivers are poets and philosophers. Here, a football match is a spectacle everyone must experience at least once.

Here, we'll introduce you to tango, dulce de leche and asado. And we want to meet you and get to know you. Because here we don't receive tourists; we make friends.

You may find us a little noisy, but above all, you'll find us to be authentic. And here in Buenos Aires, you can be sure about one thing: you'll feel part of the city. And when you depart, you'll leave your mark and take something of us with you.

4.5 Climate

Buenos Aires 2018 will occur during Argentinian spring, which is one of our rainiest seasons. Either way, rains tend to be light and don't get in the way of activities but you may need to bring a raincoat or umbrella. October in Buenos Aires has mild, humid weather; temperatures range between 13° - 21° C (56° - 70° F).

5. ATHLETICS OVERVIEW

5.1 Athletics at the Olympic Games

Throughout recorded sports history, athletics has always been practised. The first event contested in the ancient Olympic Games was the “stadium” race, a sprint of about 192 metres. Winners in this event have been recorded from as far back as 776 BC.

Much like today, the ancient Olympic Games included a wide variety of track and field events. Such events included longer foot races, a race in armour, and a pentathlon event that consisted of the “stadium” race, long jump, discus throw, javelin throw and wrestling.

Since 1896, athletics has been on the programme of each edition of the Games of the Olympiad. Its presence on the Games programme has allowed its popularity to increase across the world. This popularity was also strengthened by the creation of the IAAF in 1912. Women’s events appeared for the first time at the 1928 Olympic Games in Amsterdam, while the men’s programme was standardised as of the 1932 Games in Los Angeles. Although at the beginning women were authorised to participate in only some events, today their programme is almost identical to that of the men.

7.1 Accommodation

Youth Olympic Village (YOV) Introduction and Overview

The Youth Olympic Village (YOV) is a comfortable environment which will accommodate Athletes, Team Officials, Chefs de Mission and Young Change-Makers during the Summer Youth Olympic Games Buenos Aires 2018. It is located in the south of the city of Buenos Aires, 23km away from Ministro Pistarini International Airport (EZE) (also known as Ezeiza Airport).

The YOV is part of the Government of the City of Buenos Aires' urban development programme. Each of the 30 buildings have unique specifications and layouts due to the influence of 8 different project developers. These buildings are 7 - 10 storeys high, and are grouped into 6 residential blocks that will be housing approximately 7000 Buenos Aires 2018 participants.

In line with Buenos Aires 2018's sustainability approach, some of the buildings have 'green' rooftops, which will help to regulate the buildings' temperatures, improve their air quality, and protect the roofs from weather erosion over time.

At the YOV, athletes will not only rest and relax to get their best performance during competitions, but also enjoy and learn with the Culture & Education Programme to promote a cultural exchange of experiences and integration with others.

7.4 Doping Control

IOC Anti-Doping Rules

The IOC's Anti-Doping Rules for the Summer Youth Olympic Games Buenos Aires 2018 complies with the 2015 World Anti-Doping Code and the mandatory World Anti-Doping Agency's (WADA) International Standards. The IOC rules include reference to the 2018 WADA Prohibited List.

Doping Control Programme

The IOC Medical and Scientific Commission (MC) is responsible for supervising the Doping Control Programme in compliance with the IOC Anti-Doping Rules applicable for the Summer Youth Olympic Games Buenos Aires 2018.

BAYOGOC will be responsible for launching and carrying out the Doping Control Programme under the authority of the IOC Medical Commission and in compliance with World Anti-Doping Code, the WADA International Standards and the IOC Anti-Doping Rules applicable for the period of the Games. The WADA Prohibited List for 2018 is published on [WADA official website](#).

BAYOGOC will be the exclusive service provider for all doping control tests in the Doping Control Stations (DCS) assigned for that effect, and will be responsible for establishing the necessary infrastructure and operational provisions to implement the Doping Control Programme, including the sample collection, storage and transport to the WADA accredited laboratory for the corresponding analysis.

The main purpose of the technical proceedings for the Doping Control Programme is to plan the tests effectively and maintain the integrity and identity of the samples collected. Doping control procedures will never interfere with any victory ceremony. At any moment, the chaperone and/or the Doping Control Officer must accompany the athlete to the victory ceremony if it was not possible to collect a sample before the start of the victory ceremony. Moreover, all testing results – may they be positive or negative – will be communicated to the IOC after the Games.

sport, thereby promoting health, fairness and equality in competition.

The doping controls will be separated into two parts: doping controls “out of” competition (before) and doping controls “in” competition (during), following the rules of in and out of competition testing. These will comply with the Doping Control Protocols determined by the IOC, WADA, the IFs and BAYOGOC. Urine and blood samples will be collected from the athletes during the period starting with the opening of the YOY on 2 October and ending with the Closing Ceremony on 18 October 2018, inclusive.

The objectives are to preserve the dignity of Olympic sport and to protect the athletes' fundamental right to participate in doping-free. In order to facilitate the localization of the athletes for doping controls inside YOY, BAYOGOC will follow two procedures, validated by the IOC. The ADAMS Whereabouts system will be generally used for locating an athlete. In addition, NOCs will be required to send a rooming list of their athletes to a secure email address, created for the sole use of the Doping control team. Data provided is strictly confidential and will not be shared with any other parts, in order to respect athletes' privacy.

The Therapeutic Use Exemptions will be taken into account in accordance with the information obtained according to the International Standard Therapeutic Use Exemptions (ISTUE): <https://www.wada-ama.org>

During the games, in the Medical Clinic of the Youth Olympic Village there will be a letterbox to deposit the emergency TUEs.

The decision of the TUE Committee to grant or to deny an Emergency TUE will be recorded in ADAMS. If the TUE is denied or the application is incomplete the athlete's physician will be contacted by the TUE Committee.

Medical information must include comprehensive diagnosis and medical history, results of all relevant examinations and laboratory investigations.

7.9 Sustainability

BAYOGOC's goal is that all actions carried out within the framework of this event are in line with existing local and global standards, such as the 17 Sustainable Development Goals stated by the UN, on recommendations included in the 2020 Olympic Agenda, and on the IOC Sustainability Strategy.

Buenos Aires 2018 will be key to getting closer to the goal of living and progressing globally in a sustainable manner, regarding biological and cultural diversity.

BAYOGOC has defined the following 3 strategies to achieve this goal:

DEVELOPMENT OF SUSTAINABLE
POLICIES

ACCURATELY POSITION
SUSTAINABILITY IN SOCIETY

PROMOTION OF A SUSTAINABLE
CULTURE

SUSTAINABILITY FOCUS AREAS

To meet the previously mentioned goals, BAYOGOC's initiatives are:

ZERO WASTE

The separation of waste at the place of origin facilitates the recovery of reusable or recyclable materials, complying with City of Buenos Aires' Act No. 1854 'Basura Cero' (Zero Waste), which aims to gradually reduce the amount of urban solid waste buried in landfills.

SUSTAINABLE PROCUREMENT

This area has great potential to impact on the implementation of sustainability policies. The creation of guides, manuals and procurement policies intends to help the development of the local market in terms of sustainability, as well as to establish internal criteria for the selection of suppliers and hiring of services.

ISO 20120 Sustainable Event Management System

Buenos Aires 2018 will be the first event in Argentina to certify the standard ISO 20120.

SUSTAINABLE CULTURE

Buenos Aires 2018 is keen on leaving, through young people, a legacy of an unforgettable experience beyond the sport competition. The Learn & Share programme will allow participants to become ambassadors of a sustainable culture with a strong citizen commitment.

7.10 Transport

Transport services for Buenos Aires 2018 are set to operate between 30 September 2018 and 22 October 2018 and will help to ensure that all accredited clients are able to travel safely and efficiently between the YOV, venues and official locations.

The transport system will be free of charge for all accredited clients, by presenting the Youth Olympic Accreditation Card (YOAC). The YOG transport system will include a Common Shuttle Service (CSS), a Pre-planned transport services (PPS) and Public Transport (PT).

Pre-Planned Transport Service (PPS)

The pre-planned transport service is designed to supplement the CSS in transporting clients to certain venues not covered by the CSS, and will operate based on pre-determined schedules between designated points at designated times.

The PPS will connect the YOY and the official hotel zone to all Stand Alone Venues and will be accessible to all NOC accredited clients, subject to the presentation of their accreditation at each transport hub.

Public Transport

All accredited clients will be entitled to use Buenos Aires' public transport system within the city and its surrounding neighbourhoods, free of charge by presenting the YOAC, from 30 September to 22 October 2018.

The public transport system includes city buses, subway and trains, which can be accessed at any time by accredited clients by presenting their YOAC.

Taxi

Each Park and Stand Alone Venue will have a taxi stop, where clients will be able to request the city's taxi services at their own expense. Taxis should be available at all time during the parks opening hours. However, if no taxi is available at the taxi stop, they can be requested at the transport hub of each Park.

Further details on the taxi stops will be provided at a later stage.

Drop-off and Pick-up Point

Drop-off and Pick-up of accredited clients will take place at loading zones where the transport hubs are. They will be located at each park and venue outside of the security perimeter.

7.11 Youth Olympic Pass

Buenos Aires 2018 will have a free-ticket policy, where all sport competitions will be free of charge to the public, NOC Participants' Friends and Families, (NPFF) and accredited clients.

Athletes, Team Officials and Young Change Makers (YCM) will be able to access the Accredited Stand of each venue, upon presentation of their YOAC.

7.12 Buenos Aires: more useful information

HOOR ACTIVITIES

The time zone in Argentina is UTC/GMT-3 and there are no time changes during the year. Activity in Buenos Aires starts early in the morning and continues until very late at night.

SHOPS

Most shops open 9am - 8pm Monday to Friday and at least 9am - 1pm on Saturdays, but many stores on the main avenues and in the main commercial areas also open all Saturday afternoon. Shopping malls usually open until 10pm, even on Sundays and public holidays.

BANKS

Banks open 10am - 3pm, Monday - Friday. Some branches in the central downtown area may open until 4pm. Cash withdrawals can be made from ATMs/cash machines 24 hours a day.

SMOKING AND ALCOHOL CONSUMPTION

Smoking in Buenos Aires is prohibited in closed public spaces and on public transport, as well as in restaurants, bars, cafes, shopping centres, cinemas, etc.

The consumption of alcohol is legal only for people aged over 18. Drinking is prohibited in sports stadiums and venues. Supermarkets are permitted to sell alcohol until 10pm; restaurants, bars and nightclubs until 5am.

The possession, manufacture, sale and use of drugs (including marijuana) is prohibited by law in Argentina.

MONEY

Argentina's national currency is the Argentine Peso. Note that it has the same symbol (\$) as the dollar (don't get confused) - prices expressed using the \$ symbol are in Argentine Pesos unless stated otherwise. US dollars are usually referred to by using the symbol: US\$.

It is easy to exchange money in Buenos Aires at casas de cambio (bureaux de change/currency exchanges) and at most banks - note that you'll need to provide identification.

To take in consideration:

- Illegal money changers operating in the street, particularly in areas such as Calle Florida, may claim to offer a slightly better rate for dollars and euros than banks and casas de cambio, but for your safety it is advised to change money at regulated institutions. For the same reason, we do not advise changing large amounts of money at one time.
- Local currency can also be withdrawn 24 hours a day from ATMs, and larger shops and restaurants usually accept payment by credit or debit card.

Other recommendations:

- Tax-free shopping: foreign tourists are eligible to reclaim tax (VAT) on purchases of domestically-manufactured goods with a value over ARS \$70 when made at participating outlets.
- Paying in US dollars: some restaurants, hotels and shops may accept cash payments in US dollars with a favourable exchange rate. It is always worth asking.
- Keep some small change handy: many shops often run low on small change - both coins and small denomination bank notes. They will be glad if you can pay with the exact change.

What can you do with your left-over pesos?

If you have a large number of pesos left at the end of your visit, you can change them to US dollars at an official casa de cambio, in a bank or even at the airport (it may also be possible to exchange them for euros, or Brazilian Reales, but other currencies are not regularly stocked). You may be asked to provide receipt from your original sale of dollars in order to buy back dollars. If you have less than ARS \$1,000 left, it's probably best to use it for transport to the airport or for buying souvenirs.
