Monaco, 28 September 1998

Dear Ms Berces

Kedves Edit!

Re: IAAF Year of Women in Athletics

As you may know, this year is a very special year for athletics. We are celebrating the history and great accomplishments of women in our sport and doing much to promote all aspects of women's athletics throughout the world.

Thanks to the enthusiastic response which we have received from our Member Federations, numerous activities for women have been organised in practically every country and already this project has helped to overcome some major social and cultural barriers.

We would also like to associate women ultrarunners with this project and pay tribute to those who have achieved outstanding performances in 1998.

On behalf of the IAAF, I am, therefore, proud to present you with this commemorative medal for the Hungarian National 100km Road Record which you set on 3 May 1998.

We wish you every success in your career.

Yours sincerely,

Istvan Gyulai
